PROFILE

Computer Science undergraduate with a strong technical foundation in frontend development and a growing interest in software quality. I enjoy building websites and experimenting with how things work under the hood — from writing clean React components to poking around in Figma and tracking down bugs. Comfortable working with tools like JavaScript, Git, GitHub, and Figma, and currently exploring QA to better understand the full software development lifecycle. Looking for opportunities where attention to detail and curiosity are valued.

WORK EXPERIENCE

Frontend Developer Intern

Sep 2025 – Nov 2025 · 3 mo

Bloom Local AI · Remote

- Led frontend development of web app features, taking ownership of tasks from design handoff through to deployment.
- Coordinated with the engineering team to align on priorities, flag dependencies, and maintain delivery momentum.
- Used Notion, Linear, and Slack daily to track progress and communicate status updates asynchronously.

Frontend Developer

Sep 2023 – Oct 2023 · 1 mo

Pináculo Digital · Remote Freelance

- Delivered frontend development work independently, managing own timeline and client expectations without direct supervision.

Frontend Developer Intern

Mar 2023 – Jul 2023 · 4 mo

Storgtech Tecnologias & Serviços, LDA · Remote

- Integrated Microsoft SharePoint solutions for internal teams, working across stakeholders to gather requirements and deliver on scope.
- Documented implementation steps and tracked progress to ensure milestones were met on schedule.

Technical Support Intern

Sep 2022 – Dec 2022 · 3 mo

Sogester · Namibe, Angola

- Handled helpdesk operations: triaged issues by priority, tracked ticket resolution status, and assisted users with troubleshooting — building habits of systematic follow-through and clear communication.

SKILLS & TOOLS

Project & collaboration tools — Notion · Linear · Slack · Google Sheets · GitHub · Figma

Technical — HTML / CSS / JS · React · Next.js · Tailwind CSS · TypeScript · Git · Vercel

Strengths — Attention to detail · Async remote work · Cross-functional communication · Documentation · Self-directed delivery

EDUCATION

B.Tech, Computer Science & Engineering

Andhra University College of Engineering
2023 – 2027

CERTIFICATIONS

JavaScript ES6+ — Origamid · 2025

Networking Essentials — WomakersCode Scholarship · 2022

Web Development — Rocketseat · 2022

PROJECTS

Spotify Clone

Next.js · Tailwind · TypeScript
spotify-cyan-chi.vercel.app

Rocketflix

HTML · SASS · JavaScript
