

MELISSA COSTA

Manual QA Tester | BTech CSE Student

m3licosta@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Visakhapatnam, India

PROFILE

Curious by nature and detail-obsessed by habit, I got into QA because I genuinely enjoy poking at software until it tells me the truth. I've built my foundation in manual testing, STLC, and defect management through self-study on Guru99, and I'm now applying it hands-on, testing a live nonprofit website and writing formal bug reports. Along the way, I create content about what I'm learning, which keeps my understanding sharp.

QA EXPERIENCE

Manual QA Tester (Volunteer) — Hand in Hand International *Ongoing*

- Performing manual testing on a live website, covering functional and usability checks across key user flows.
- Writing formal bug reports documenting steps to reproduce, expected vs. actual results, and severity.

RELEVANT EXPERIENCE

Frontend Developer Intern — Bloom Local AI • Remote *Sep 2025 – Nov 2025*

- Owned features end-to-end from design handoff to deployment, developing close attention to edge cases and unexpected states.
- Used Linear daily to track and triage issues, building habits directly transferable to defect tracking workflows.

EDUCATION

B.Tech, Computer Science & Engineering — Andhra University College of Engineering *2023 – 2027*

QA LEARNING

Self-directed QA training via Guru99, covering: STLC & SDLC, Testing Principles, V-Model, Test Levels (Unit/Integration/System), Test Types (Smoke, Sanity, Regression, Black Box/White Box), Test Design Techniques (BVA, Equivalence Partitioning, Decision Tables, State Transition), Defect Life Cycle, Requirements Traceability Matrix (RTM), Test Planning & Estimation (PERT).

Currently also studying Microsoft Azure Fundamentals.

PORTFOLIO

QA Learning Journey (GitHub): github.com/mellcosta/qa-learning-journey

"Breaking Into QA": QA learning content shared across LinkedIn and other social channels

SOFT SKILLS

Attention to Detail · Curiosity & Continuous Learning · Teamwork & Cross-Functional Collaboration · Clear, Structured Communication

TOOLS

Notion · Trello · Google Sheets · Google Docs · Linear · Slack · Git/GitHub · Figma · UserTesting (registered tester, awaiting first assignment) · Zoho (learning)

LANGUAGES

Portuguese (Native) · English (Advanced, C1) · Spanish (Basic)
